

Questions to Ask a Wedding Planner

In the first flush of joy after your engagement, you probably began browsing wedding websites, social media sites like Pinterest, and magazines. If you soon felt buried by a blizzard of checklists and a daunting array of decisions, you and your fiancé might want to think about hiring a professional wedding planner.

Depending on your budget and needs, you can contract:

- a full-service planner to arrange every detail
- someone to assist you only in choosing your wedding location and vendors
- a day-of coordinator (which really means 30 days before your wedding)

NOTE: Many locations have in-house coordinators, but make sure you're clear on exactly what level of service they provide. Venue coordinators usually just handle day-of issues and offer a list of their preferred vendors, so having your own planner may still be a great help.

Even though hiring a planner is an added cost, they often end up saving you money in the long run. And no doubt about it—the right wedding planner can definitely save you time and stress (priceless!).

Before interviewing potential wedding planners, you and your fiancé should have an idea of:

- How much money you have in your budget
- How many people you would like to invite

- Your preferred wedding date
- Your vision for your wedding (**NOTE:** If you aren't sure yet don't worry—getting help with this is one of the reasons why you're hiring a wedding planner!)

After each interview is complete, ask yourselves:

- Did we feel heard?
- Does the planner understand our vision?
- Did we get a strong sense he/she will work with our budget?
- Was there a good connection and did our personalities mesh well?

Listen to your gut. If an interview doesn't feel right, then maybe that person just isn't a good fit for you. Your wedding planner is the vendor you'll be spending the most time with, so it's important to pick someone who's compatible with you and your fiancé.
